semaphorin–plexin signaling pathway involved in neuron projection guidance semaphorin–plexin sig involved in neuron pro		semaphorin-plexin signaling pathway involved in axon guidance	histone H4 deacetylation —histone H4 deacety peptidyl–lysine acetylation	dation	regulation of regulation mRNA export export fro from nucleus		regulation of riotimRNArotein m nuoleusx localization		
			anion homeostasis	positive positiverrec of metabolic process				Golgi ribbon formation	
skeletal muscle thin filament assembly	myofibril assembly	cardiac myofibril		glutamine transport		cellular response to		chromatin silencing	
epithelial cell	glomerul	assembly glomerular	regulation of phospholipase			oport -		ephrine nulus	at telomere
differentiation glomerular visc involved in kidney development	erabiépithé developm	lial cell development	C activity	extracellular matrix assembly		ular	negative regulation of neural precursor cell proliferation
